

Shirley Augurson notes Key items-

Coordinate a tour by Administrator Jackson and Regional Administrators and perhaps include the NRC chair.

Focus on the lack of communication between Region 6 and 9, documents written by the agency are inconsistent, that the community get any kind of reports back out to them on all issues.

Temporary housing issues – such as hook up of utilities.

The EPA goes through the Navajo Nation to communicate information to the community. This is not as effective as it would be if EPA came out and directly spoke to the community. When distributing information such as a recent decision that was made – some community members received an email and other's received no notification.

Community wants their input on any technical discussion valued.

Community suggests proactive sharing of information before decisions are made.

Regarding the ATSDR – their sampling is in question, need to clearly set forth the study methods, that ATSDR do a real health study.

Tedi Nez with the Red Water Pond Road is asking for off site removal of waste rather than have waste moved to United Nuclear.

There are those that suffer from post traumatic stress illnesses.

That the NEJAC be held in SW region (New Mexico or Arizona)

Discuss and include issues of racism in EPA EJ training.

Fund and train community members to monitor hazardous areas.

Assure quality of monitoring by instituting checks by regulatory agencies on all sampling and work done by industry

There is a need for comprehensive health studies in entire uranium belt
